**SECOND SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Mail Stop IDS  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This Information Disclosure Statement, including completed Form PTO-1449, comprises a list of pertinent information of which Applicants are aware. A copy of each document listed on Form PTO-1449 is enclosed herewith.

The submission of this Information Disclosure Statement and the accompanying references is not an admission that the references cited are "prior art" with respect to the present invention, nor is it a representation that no better art exists. Applicants hereby reserve the right to swear behind or otherwise disprove any alleged "prior" nature of any art cited should the facts support and the situation warrant such an action.

Applicants write, in part, to disclose the settlement of litigation relevant to this reexamination. As reflected in the accompanying PTO Form 1449 and attachments, on March 26, 2004 MicroUnity Systems Engineering, Inc. ("MicroUnity") filed suit against Dell, Inc. and

**10/616,303**

Intel Corp. ("Intel") in the Eastern District of Texas alleging infringement of eight United States patents including United States Patent Nos. 6,643,765 B1 ("the '765 Patent") and 6,725,356 ("the '356 Patent"). *See* References A & B attached to PTO Form 1449. Subsequently, on April 15, 2005, Intel submitted a petition for *inter partes* reexamination of the '765 Patent and '356 Patent, which the PTO granted and which is currently pending. The '356 patent is in the priority chain of the present application. The '356 Patent is a continuation of patent 6,295,599, which is the parent of the '765 Patent. A Notice of Concurrent Proceedings of reexamination proceedings is also being submitted in a separate paper. The '765 Patent and '356 Patent are among eight patents now being asserted against Sony Entertainment for alleged infringement in the Eastern District of Texas.

As reflected in the attachments to the accompanying PTO Form 1449, the litigation between MicroUnity and Intel relating to the '765 Patent has now settled. Although the settlement agreement itself is confidential, publicly available information (including Intel's own press release) reflects that Intel has agreed to pay \$300 million for, among other things, a license under the '765 Patent. According to one New York Times article:

Intel announced that it had settled a patent suit brought last year by MicroUnity. Of the \$300 million to be paid, \$140 million was charged against earnings in Intel's most recent quarter.

The deal assures Intel of access to MicroUnity technology, which is used in Intel's current family of Pentium chips, and to patents that MicroUnity has developed more recently...

The agreement covers features like . . . processing designs for handling video and audio data...

*See* J. Markoff, "Intel Settlement Revives a Fading Chip Designer," THE NEW YORK TIMES (October 20, 2005) (attached as Reference C to PTO Form 1449). An October 18, 2005 Intel press release similarly recognizes that Intel and MicroUnity "entered into a settlement agreement

**10/616,303**

that resolves a patent infringement case and provides certain rights for Intel customers." See Intel Announces Record Revenue of \$9.96 Billion; EPS of 32 Cents Includes Legal Settlement that Lowered EPS By Approximately 2 Cents" (October 18, 2005) (attached as Reference D to PTO Form 1449).

The references included in this Information Disclosure Statement are from the litigations mentioned above in the U.S. and are not from foreign prosecution of any counterpart of this patent application. The Information Disclosure Statement is being filed more than three months after the U.S. filing date and after the mailing date of a Final Rejection or Notice of Allowance, but after the payment of the Issue Fee. The references listed in this Information Disclosure Statement are currently not submitted herewith since they have been submitted with together with the filing of the previous Information Disclosure Statement on January 3, 2006.

Please charge the processing fee under 1.17(p) of \$180.00 to Deposit Account 500417. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 500417 and please credit any excess fees to such deposit account.

Respectfully submitted,-

McDERMOTT WILL & EMERY LLP
